On the homepage, you will see important data for managing your Parking Areas, such as statistics and relevant charts for administering the city's metered parking. At the top, there is a horizontal menu with important sections. Press "Parking Areas".

In this section, you will see the already created parking areas. Remember that each parking area can have several parking zones. The subscription will allow you to provide a fixed monthly rate as an option for parking users. It will establish a fixed monthly rate for a specific zone with the specified rate for each type of vehicle.

Press "Subscriptions".
