T2Parking - Exploring the Step-by-Step Tutorial Guide of the Application

In this tutorial, we will explore the hamburger menu of the T2Parking application to learn about its main functions. Therefore, we will only focus on point **1**

1 When you enter the T2Parking mobile application, you will find this screen. Here we will briefly explain what each of the main sections of the application is about.
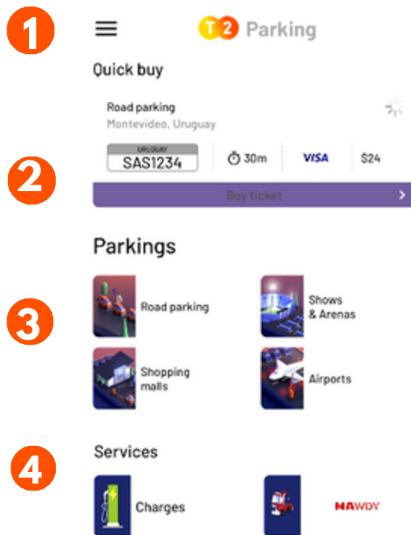

1 At the top left, you will find the burger menu. There you will have access to all your account settings, payment methods, control systems, vehicles, and more.

2 In the "Quick buy" section, you will find a quick shortcut to park in your city. It will have a default configuration, and you can quickly buy a ticket.

3 In the "Parkings" section, you will find the different types of parking you can access.

4 In the "Services" section, you will find services for your vehicle that will be useful to you.

Now click on the hamburger menu to explore the possibilities.

T2 Parking

2 When you press it, this side menu will unfold. Let's see what we have:
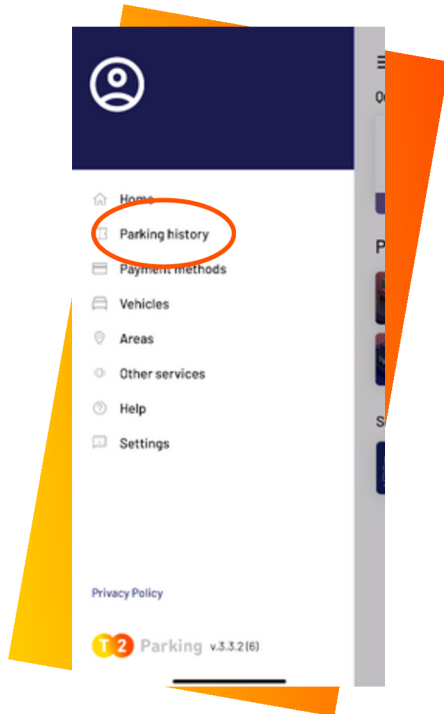

In the header, we have personal data. We can access and modify any data.

**1** *Home:* This is the screen we saw when we opened our application.

2 *Parking History:* Here you can see your parking ticket history and use different filters for better organization.

3 *Payment Methods:* Here you will have a list of your different payment methods and access to add or remove payment methods.

4 *Vehicles:* Here you will have a list of all the vehicles you have added for parking. You can add more, edit them (e.g., add tags), or delete vehicles from here.

5 *Areas:* In this section, you can choose the city where you want to access parking services.

6 *Other Services:* This section will have different kind of services depending on the Region that you are in

7 *Help:* Here you will find tips to better understanding of the application and direct access to the support team.

8 *Settings:* This section will show you information about the hours and prices of metered parking in each city in your country that is part of the T2Parking network.

7 Choose "Payment Methods".
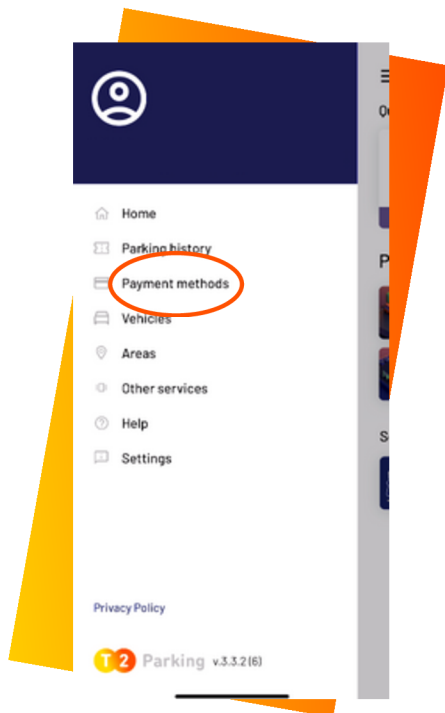

8 Here you will have access to the different payment methods you have entered so far. You can add more payment methods by pressing "Add".

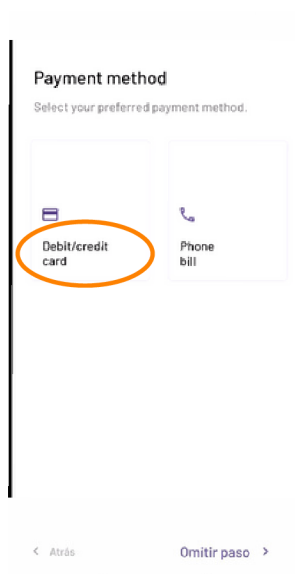

9 Here you will see the different payment methods offered in your country. Let's start by selecting "Debit/Credit Card".

10 To enter a card, first tap the card icon to define the type of card you will use.
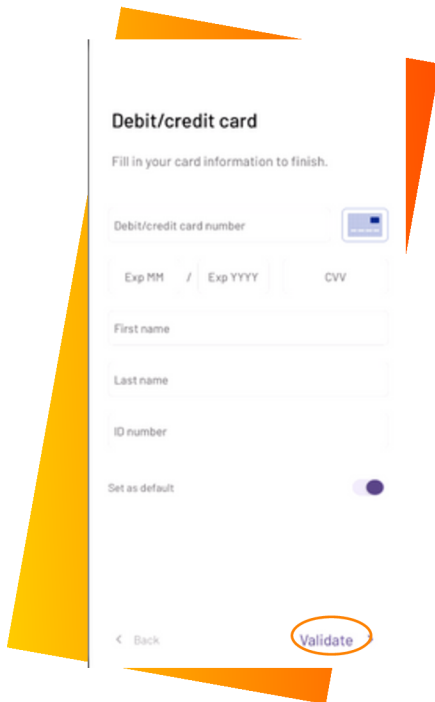

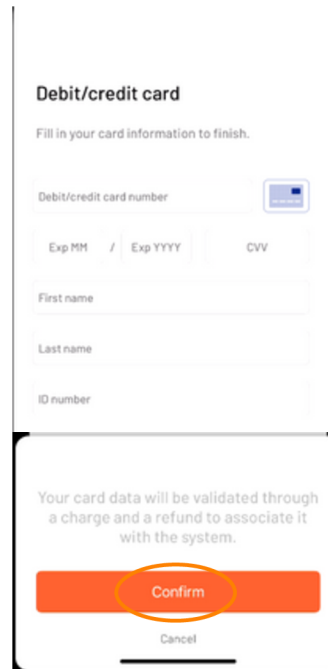

11 Then you can complete the requested data.

12 A charge and a refund will be made as a method of validating the card. Select "Confirm".

13 Wait a few seconds for the validation to be done.
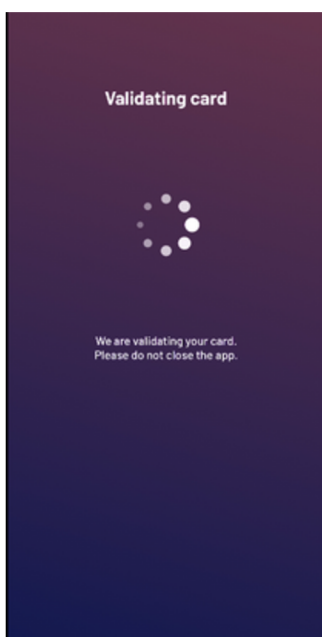

**14** You will receive a message like the one that appears on the screen once your payment method has been validated. Click "Accept".
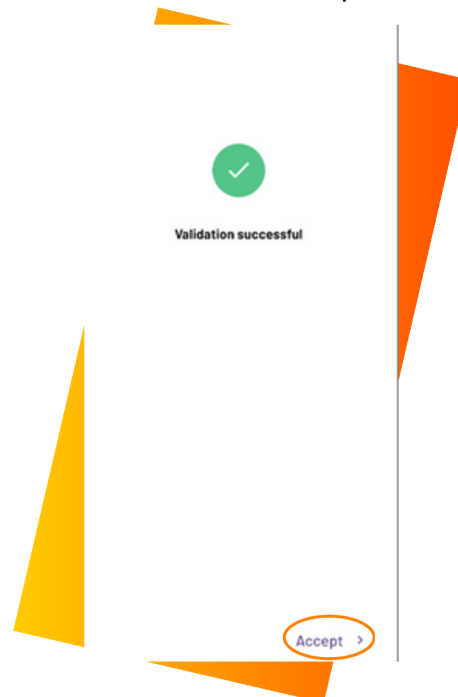

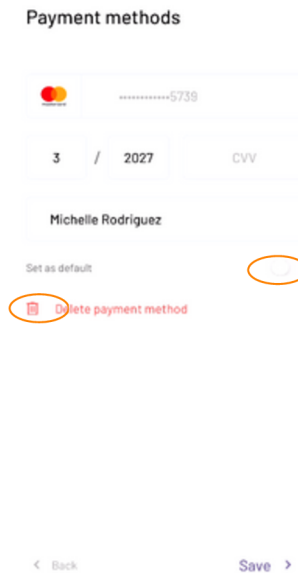

15 Now you have registered your payment method. Now select a payment method.

16 When entering a payment method, you can set it as your default payment source or delete the payment method.

Payment methods

Add a payment method for parking, and choose your default payment method.
