

Payment Methods

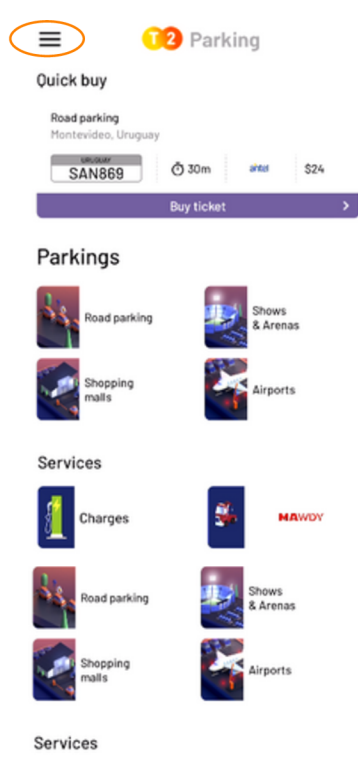

T2Parking - Adding Payment Methods. Step-by-step tutorial guide using payment methods.

In this tutorial, we will learn how to add payment methods. Various payment methods will be considered, and payment methods will be deleted.

1

The following screen is what you will see when you open the application. Select the hamburger menu at the top left.

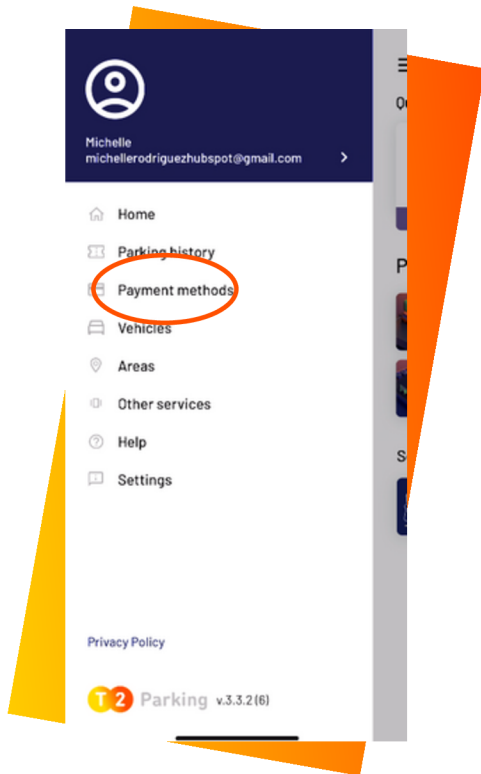

Payment methods are the billing systems you choose to link in the application to be able to park.

The accepted billing system in all countries and for all services is debit and credit cards.

In some countries, other billing mechanisms will be available, such as in Uruguay, where it is possible to add the charge to the phone bill. However, it should be noted that not all parking lots validate this type of charge.

2 Choose "Payment methods".

3 Here you will access the different payment methods you have entered so far. You can add more payment methods by pressing "Add".

Payment methods

Add a payment method for parking, and choose your default payment method.

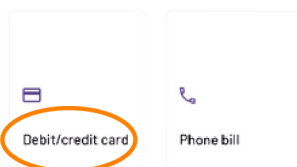

< Back Add >

4 Here you will see the different payment methods offered in your country. Let's start by selecting "Credit/Debit Card".

Payment methods

Add a payment method for parking, and choose your default payment method.

5 To enter a card, first tap the card icon

Debit/credit card

Fill in your card information to finish.

Debit/credit card number

Exp MM / Exp YYYY CV

First name

Last name

ID number

Set as default

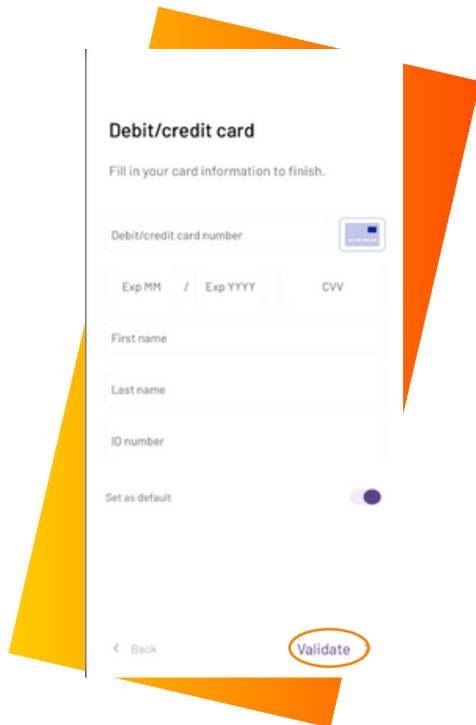

< Back

Validate >

- 6 Then you can complete the requested data.

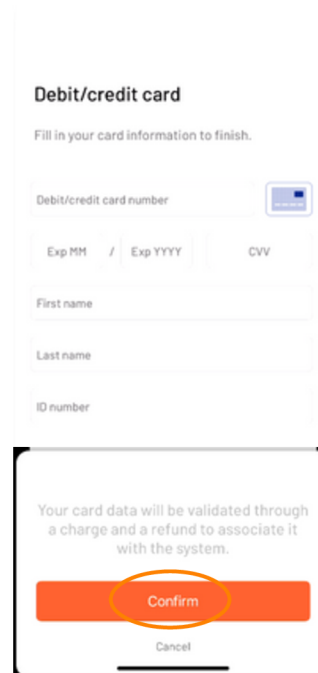

The screenshot shows a mobile app interface for adding a debit or credit card. The title is "Debit/credit card" and the instruction is "Fill in your card information to finish." The form includes fields for "Debit/credit card number", "Exp MM / Exp YYYY", "CVV", "First name", "Last name", and "ID number". There is a "Set as default" toggle switch. At the bottom, there is a "Back" button and a "Validate" button, which is circled in orange.

- 8 Wait a few seconds for the validation to be confirmed.

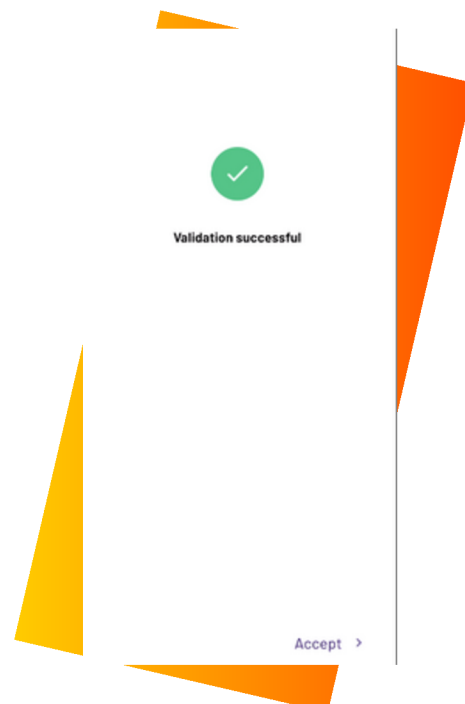

- 7 A charge and a refund will be made as a method of validating the card. Select "Confirm".

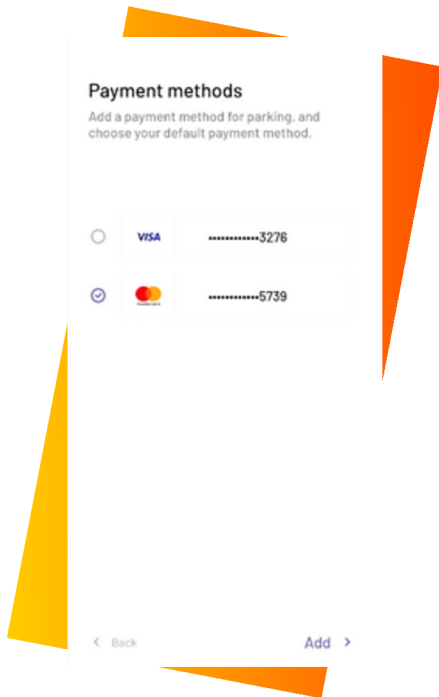

The screenshot shows the same "Debit/credit card" form as in step 6. A dialog box is overlaid on the bottom half of the screen. The dialog box contains the text: "Your card data will be validated through a charge and a refund to associate it with the system." Below this text are two buttons: "Confirm" (highlighted in orange and circled) and "Cancel".

- 9 You will receive a message like the one on the screen once your payment method has been validated.

10 You have now registered your payment method! Now, select one of your payment methods.

11 When entering a payment method, you can set it as your default billing source or delete the payment method.
